Bulgaria

31.05.2012

Dear President,

I would like to express my deepest satisfaction for the organization and contents of the Workshop on Authors, Texts and Lexicographical Data-bases which the Cyrillo-Methodian Research Centre at the Bulgarian Academy of Sciences has organized in relation with the COST Action IS1005 Medioevo Europeo. Medieval Studies and Technological Resources, in Sofia, May 17-19, 2012.

The Sofia Workshop is the first important Workshop of our COST Action after the Florence Workshop in March. And it is the first which concerns the very important cultural area of Slavonic texts. I was personally much impressed by the vitality and methodological validity of the researches which have been presented in Sofia, which prof. Svetlina Nikolova and her collaborators at the Cyrillo-Methodian Centre at the Bulgarian Academy were so able to present to a very distinguished group of specialists. It was an important occasion to build a bridge between the research work of the Cyrillo-Methodian Institute and the other partners of the COST Action. The results of this Workshop, which are already in the website of our COST Action, will be presented at the next Management Committee which will be held in Santiago de Compostela at the beginning of November. The Cyrillo-Methodian Institute will have then the occasion to present its research work and its databases to a very international panel (23 countries will be represented in Santiago).

My best thanks to the Bulgarian Academy for her excellent hospitality.

With regards,

Agostino Paravicini Bagliani,
President of SISMEL,
Chair of the COST Action
