MEDIEVAL BULGARIAN FRAGMENTS IN THE BARBERINI PALIMPSEST

*(Summary)*

The article contains the version of the Bulgarian fragments in the barb. gr. 388 manuscript at the Vatican Library, as well as a description of their orthography. The manuscript is a Slavic-Greek palimpsest and has not been studied, although experts in Slavic Studies have been aware of it for a long time. The Bulgarian text constitutes a part of a 13-th century octoechos originating from an Old Bulgarian translation.
